10/9/69, Paul and Gary:

My enclosed hasty memo on the depositions authorized and no' taken should have been noted as also being in the Investigation and Evidence 5 file.

In my files that I have classified (but could not possibly card everything, every name◊, not once is any of the names of those from whom neither a deposition nor an affidavit was authorized mentioned. I will try and recall to check their name files.

I think it would be adviseable if Hal were to check these names against a list he has, esp. to see if one of them could be the man who phoned me on the Joe Dolan show 10/66.

Rosaleen Quinn is the girl with whom Oswald had a date, the sister of a Marine mate, I believe also mentioned in Donovan's testimony. This is unchecked recollection.

I am sending a copy of this and that memo to Hal.
